

Debt Advice

**If you have money worries,
we are here to help**

Golden rules

Don't panic! But don't ignore it either

Someone helping you to deal with the debt will make it much easier for you to get back out of debt. The problem may also be linked to a family or health problem, getting support for those problems will also make it easier to stop the debt getting worse.

Tips for doing it yourself

- ✓ Work out how much you need to live on.
- ✓ Only spend that on food and bills and stick to it.
- ✓ List all your debts and how much you owe. Use our guide on priority debts to work out the most important.
- ✓ Know what spare money is left after food and bills.
- ✓ Telephone or write to the people you owe money to so that you can offer payments you can afford.
- ✓ Keep copies of what you send or tell them, and what they tell you.
- ✓ Talk to your family and friends, so they can help you, and understand why you are stressed.
- ✓ Talk to us! And don't borrow more.

Bailiffs

All bailiffs who visit your home should have a certificate from the County Court allowing them to act as bailiffs and authorisation to collect goods. You do not have to let them in, except if you have let them in before, or they are collecting unpaid fines or tax.

Debt collectors

A debt collector is a person who comes to collect money only. They are not bailiffs and do not have the same legal powers. A debt collector should never pretend to be a bailiff to scare you into paying debt.

Loan sharks

A loan shark is a person who lends money illegally without a licence. These people are criminals. They may start off friendly but...

- You may experience violence and blackmail
- You may get sudden charges and debt increases
- They have no paperwork
- They give no receipts for payment
- Refuse to tell you your loan balance or interest rate
- Keep charging more even when you repaying
- Take your cash card and other securities from you
